

Community, tradition and sustainability:

A new chapter for the Centennial Park chalet

Dollard-des-Ormeaux, September 8, 2025 — After more than fifty years of serving residents, **the historic Centennial Park chalet has been transformed** to better welcome the community and meet today's needs. Accessible and sustainable, it is becoming a central hub for community life in the **heart of Dollard-des-Ormeaux's iconic green space**.

"This chalet is much more than just a building," says Mayor Alex Bottausci. "It embodies our commitment to an exceptional natural heritage that brings our community together in a healthy and inspiring environment. "

The chalet retains its distinctive charm, notably with its **bright red roof reminiscent of the original 1970s structure**, while adopting a contemporary and luminous silhouette thanks to its large windows. Built with attention to detail, this project illustrates Dollard-des-Ormeaux's commitment to creating sustainable, inclusive, and welcoming public spaces for all.

A haven for winter sports enthusiasts, a welcoming stop for families, and a place of rest for walkers, it now offers sleek rooms and accessible, adapted restrooms, underscoring the City's commitment to inclusion and well-being to meet the needs of park users.

The new chalet welcomes everyone with open doors, offering a warm, accessible, and inviting space in the heart of our beloved Centennial Park, a true gem of Dollard-des-Ormeaux, **where nature, heritage, and community come together**.
